

Special diets and allergies

At Majstre we can offer some gluten-free alternatives to bread and pastries. Most of our dairy products are lactose-free and thus most of what we serve is lactose-free. On the other hand, we cannot exclude something from the menu that is already planned or prepared. We are happy to inform you of all the contents of our dishes, all you have to do is ask.

Unfortunately, we cannot take airborne allergies into account since we are handling many different foods in the kitchen and dining room as well as in our café. Nor can we accommodate deviations due to religious beliefs, special diets or other lifestyle-based choices.
