STJÄRTILLERIET
CONTAGION CENTER

Hello person,

We at Stjärtilleriet contagion center for sexytime illnesses and treatments have been notified by a hottie near you that you might be carrying the chlamydia. Do not be alarmed; we have years of experience treating it with the best of medicines according to the FDA, WHO, FHM, UNESCO, PETA and so on, nooooot.

Your chlamydia should be treated with antibiotics but if you're anti them biotics we suggest you try any of these new age drinkable cures listed bellow (*sides effects may include but are not limited to lightheadedness, an urge to dance, texting your ex, karaoke, more chlamydia*): a cure costs 179kr

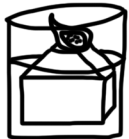

TÄRTA is a perfect cure with a flavour remeniscence of early fall cherry cake topped with cream and herb oil. If a good childhood memory can't cure your illness then look at our other suggestions. *This cure contains cherry, Absolut Vodka, cream, almond, bouque garni oil.*

REBBERRY BONER ^(RÖDBÄRSSTÄND) this cure is very surely curely purely because its a cure against bad stuff happening in the rectum. the cure elect them viruses then affect them expect nothing else but but your body to reject them viruses. put some respect on the redberry boners name. *This cure contains raspberries, strawberries, summer flowers, Woodford Reserve Bourbon, thai basil, clementine*

BLACK ORANGE ^{IS THE NEW} this cure is very popular and rare because the orange peels in it spends 3 months in a 60C ovan that makes the peel taste like chocolate that then blends with seasons first rhubarb. *This cure contains blackened orange, forced rhubarb, Ramsbury Vodka*

WAY IS THE "UE" IN FIGUE SILENT?
WAY TO COMPLICATED SPELLING-WISE Complicated stuff. These fancy french lent words will make the virus feel dumb and leave the body to hang out with people who also dont know how to spell these words like "Figue". Hanging in a very smart smart body like yours after having this smart smart drink in your body will really enlighten your intelligent overhand over the virus, not just that but the drinkable cure is also super tasty, fruity, a lil roasty!
This cure contains Figes & its leaves, Martel VS Cognac, Timut Pepper

LET THIS BIG BANANA FIZZ YOU IN YOUR MOUTH!#2 this cure is a not science based but in ancient Donald Trump beliefs, a glass full of golden rain can cure any type of "little man down below" sickness. This glass of golden rain has a wonderful flavour of banana juice, a citrus storm of the most beautiful citrus and a base of schmexy swedish akvavit.
This cure contains Norrbottens Destilleri Akvavit, banana, bergamot, sugarkelp

KRÄFTSKIVA is a cure distilled from the happy late summer memories of a traditional cray fish party, these parties are filled with these kinda genetal viruses so the thought and sience behind this cure is to fight fire with fire, the plan is that when you drink this savory seafood consomé-like drink the genetal virus has been transformed into smaller entities that dont affect our human bodies but is like a genetal virus for the virus and make the virus leave your body to go to the virus-worlds doctor because now the virus has a virus-klamydia.
This cure based on pure sience contains OP Original, langoustine, tomato, cacao

APRICOT ^{MADE FROM REAL APES} This cure works in a way where the virus freezes to death both from the always very cold temperture of the cure and also because its heavy on the very cold spice sichuan pepper. This infected-trough-sex-viruses hate the cold, therefore this cure is very effective. *This cure contains Apricot (not made from real apes), Del Maguey Vida Mezcal, sichuan pepper, jasmine*

ESPRESSO MARTINI ON STERIODS is a energetic cure that makes the virus dance, dance uncontrollably, so uncontrollably that it leaves the body trough the peehole! This cure is reminiscing of an epresso martini but much much much much much much much much better in our opinion. *This cure contains Absolut Vodka, Mr. Black Coffee Liqueur, caramelized taggache olives, tanzanian chocolate foam.*

DICK DAIQUIRI the timeless, antivaxxers cure that forever has done the job for most people. updated or reverted to the way it was made back back back in the days (maybe?!). before the lime was industrialized the key lime was the real lime, the original lime, and the flavour makes that clear, together with cane sugar from south america this makes this the best daiquiri we can imagine. *This cure contains Takamaka Light Rum, key lime, piloncillo. boozeless version available*

MONACO SHANDY this cure is super shuggable which means you can consume more of it, which is nice! perfumey and almost a little bit middle eastern type of cure. More is more and less is less but less is not always worse but in this case much is very good. *This cure contains Peroni, pomegranit, neroli. boozeless version available*

HOPE PUTIN POOPS HIS PANTS EVERY DAY- MULE this cure involves magic, everytime you consume this cure a little fairy waves its wand and putin makes a little little poop in his pants, other than that its not that much of an effective cure, you might need to consume multiple of this cure to get your virus treated. *This cure contains Rum Fire, lime, galanga, spices*

DRAJJA booze kills bacteria, virus & bacteria are like kinda the same thing... *This cure contains Hernö Juniper Cask Gin, Empirical Spirits The Plum, I Suppose, Dry Vermouth*

IRISH COFFEE hot hot hot coffee, spiced spiced spiced sugar, cold cold cold cream, irish irish irish whisky. This is a cure that doesn't work at all, but its all fun and yum. *This cure contains Jameson Black Barrel, coffee, spices, fig leaf, cream, long pepper*

SHOUT OUT TO ALL THE PREGO WOMAN! this cure is schmokey, so schmokey that it has no side effects, no side effects at all. This is a cure for the prego woman out there! *This cure contains Blackened Orange & Järn Original, Rosehip Vinager. boozeless version only available*
