MAKE
BLACK
THE NEW
ORANGE
AGAIN

ORANGES that we turn black during a process that takes around two to three months, RHUBARB then some RAMSBURY VODKA the blackening process caramelize every cell of the orange and makes it taste like cacao, the best kind of flavour, everybody knows our flavour is the best type of flavour. Nobody knows flavour like us.

GRANNU SMITH GRANITA

**GERANIUM, SEAWEED &

this aromatic, salty and unique drink is great
as a aperitif to get you tastebuds going. it starts
as a salty slightly savoury drink but as the
granita melts it gets more herbylicious,
sour and fresh. its a small journey
for your buddy of taste.

this is probably
how a daiquiri
would have tasted
like before sugars
got refined and
lime industrialized.

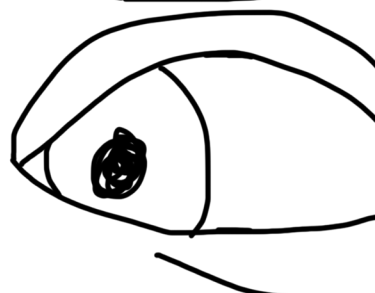

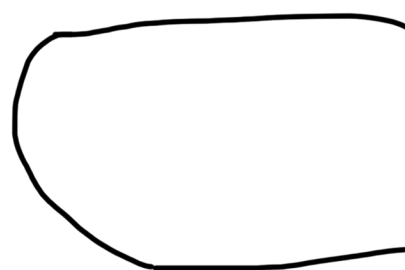

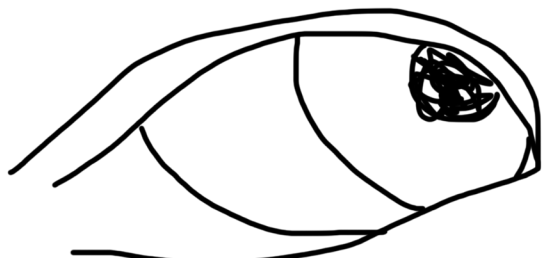

takamaka light rum,
key lime which is
the original lime
and panela, a
whole unrefined
cane sugar from
latin america.
the best and
only way to drink
a daiquiri!!!!

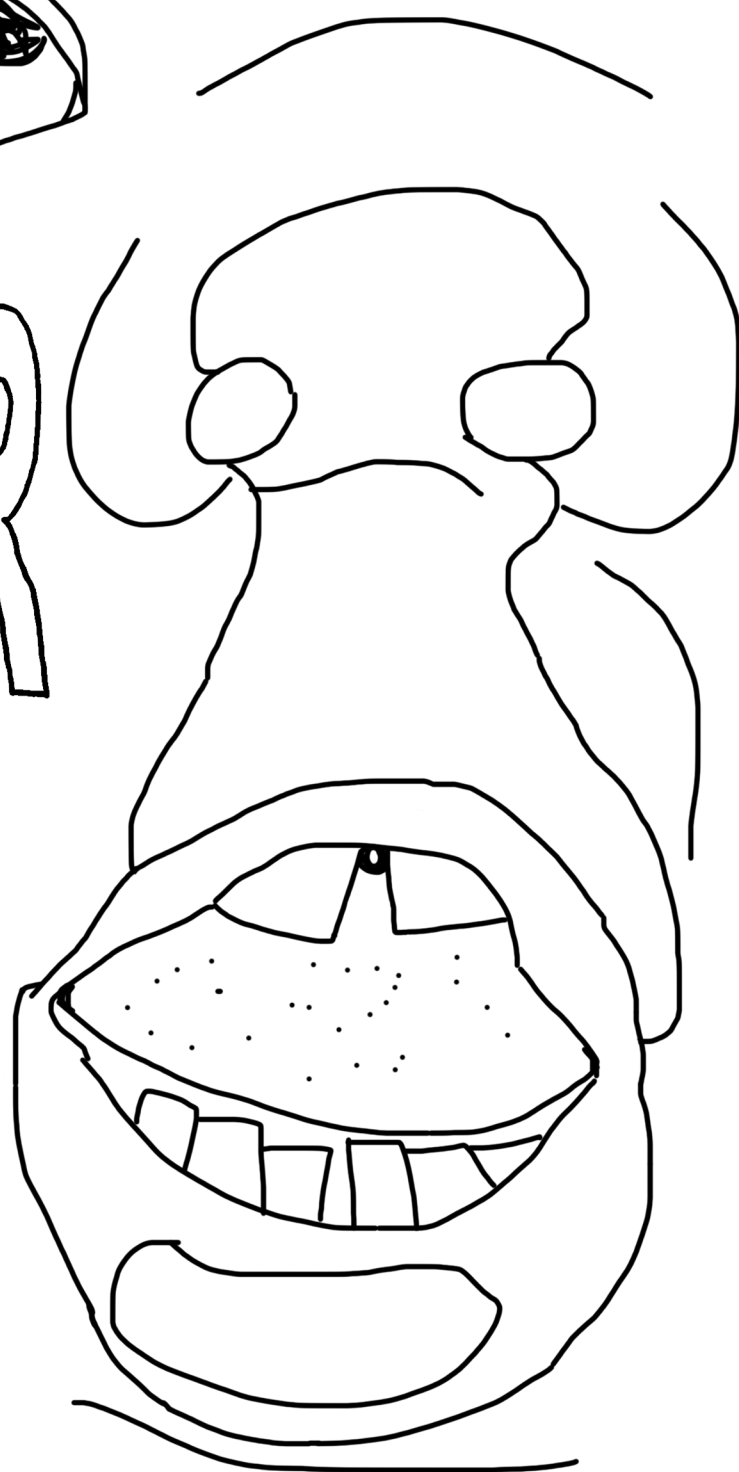

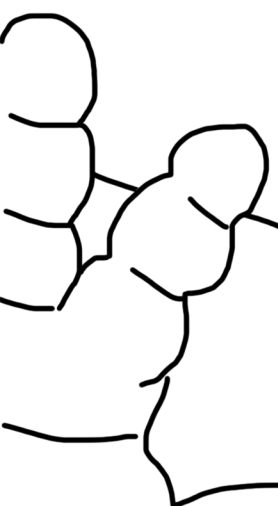

we are very proud of our bloody mary! deep in flavour it hits all the right notes and then some for the drink that is crowned "the hang over killer"
