

MEETINGS & EVENTS

A city center hub.

Hobo is a hotel in Kluuvikatu in the heart of Helsinki - but it's far more than just a hotel. Hobo is our idea of community. A place where we live, work, create, learn and have fun together.

183 hotel rooms, a bar, an event venue, clubs, the restaurant, meeting rooms and our pop-up area for collaborations between local creators, us and our guests.

Welcome to our community.
We call it *Hobo*.

xoxo, HOBO Helsinki

NEST

Intimate, cozy ... we came up with the name nest. This is a space filled with natural light, but still in its own privacy. Choose Nest when you need a compact space for around 8 people.

Removable walls allow us to play with the setup however you see fit - we can combine Nest and Lounge to one bigger space.

GREENHOUSE

Freshhhh is the way to describe our Greenhouse. Plants, herbs, greens of all sorts - we planted them for you to enjoy while making important decisions (a study found that people who spent time in the garden report better physical and mental health levels, so there you go).

Greenhouse is perfect for innovative workshops, meetings and discussions up to 10 people around the same table.

BEST FOR ALBUM LAUNCHES, MEETINGS AND SEMINARS

VINYL

Hey funky mama! Vinyl is a venue for the soul sisters and brothers. While we decorated it to look cool, the space also sounds and feels good.

Vinyl is perfect for a bit bigger occasion like an album launch or a meet & greet with the favourite artist. Or just a really awesome meeting.

LIBRARY

Shh! Just kidding. This is a library you don't have to be silent in. We wanted to bring you to the centre of tales and stories to inspire, so we built quite unique library to the city.

Library is a perfect space for book launches, book clubs and just about anything wicked. The space is also perfect for an inspiring meeting. Windows to overlook Aleksanterinkatu, so there's plenty of natural light in the space.

SERENE AND EASILY CUSTOMIZABLE

HARMONY

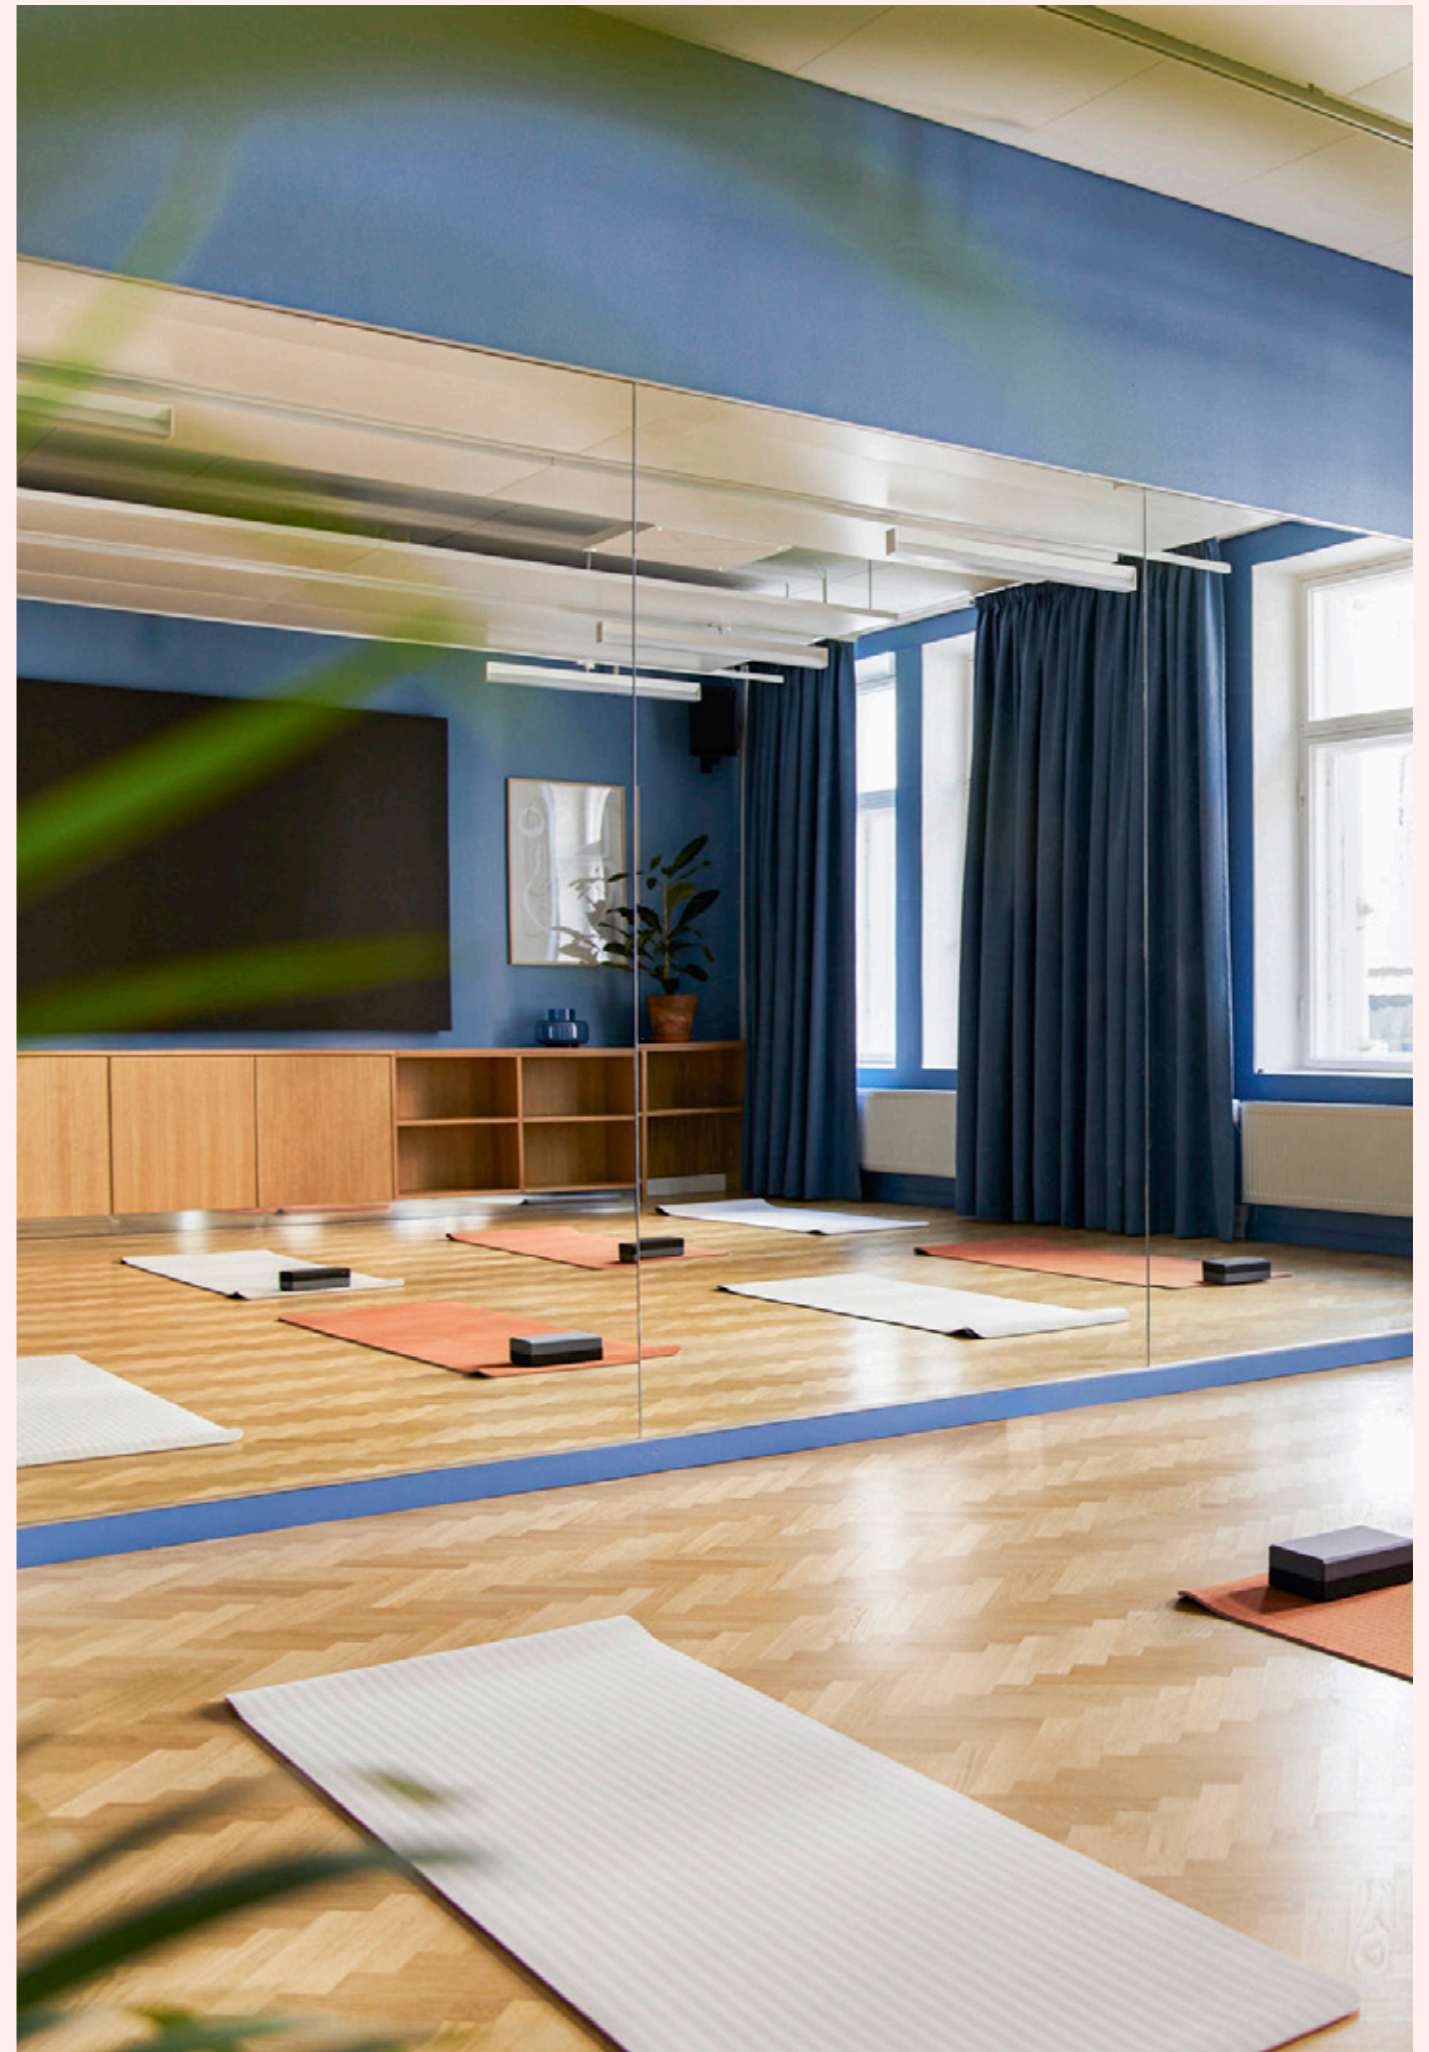

Breath in ... and out ... Harmony gives good vibes as a venue. It's a versatile, very calm space, where you can unwind and host the most wholesome yoga classes or movement meetings (all of us who work in front of an office desk, sounds good right?). You just come as you are, we have everything ready for you. To make it easier, we built a big mirror there to practice.

Harmony is also perfect to built your own kind of event, since all the furniture (if needed) is movable. What fun could we plan here? I'm thinking mindfulness and meeting hybrid!

SOUND STUDIO

Sound check, sound check ... Sound Studio is something completely different. Built with people who know their sh*t, we wanted the space to work as an actual sound studio. So here it is!

Perfect for recording a Grammy worthy album, your new idea of a podcast or just the karaoke sample you have always wanted to do, Sound Studio serves you as the spot. In addition, you can chill there and host small meeting sessions maximum of 6 people.
